

CONTENTS

Qixiang Su, Qingchun Yu, Xiaomei Zhu, Tianlie Xiao, Biao Ye

Aluminium thermal reduction process for preparing ferrosilicon and alumina from fly ash 1

Putu Reidita Artha Putri, Akhmad Ardian Korda, Eddy Agus Basuki, Fadhli Muhammad, Tria Laksana, Djalu Amardanta Priambudi, Imam Al Syaikhani, Septa Berti Santosa

Influence of holding time during rapid tempering after rapid austenitization on the microstructure and mechanical properties of low carbon steel 13

Weimin Chen, Jinlong Hu, Zhuhao Wen, Haoqin Lin, Liying Sun, Qiang Zhang

Effects of scanning speed on mechanical, wear property, and corrosion behavior of CP-Ti fabricated by the selective laser melting technique 25

Xin Li, Junhua Guo, Jianglei Fan, Yongbiao Wang, Yanyan Li, Xiaoguang Zhou, Shuxia Tian, Feng Mao, Kunlin Miao, Shizhong Wei

Optimization of smelting process of magnesium based on machine learning 41

Muhammad Zubair, Khushnuda Nur, Ehsan ul Haq, Furqan Ahmed, Muhammad Adil Javed, Muhammad Junaid Khan, Muhammad Mubeen Naveed, Mirza Mueed ul Hassan, Ahmed Abdullah

A comparative study of mechanical behaviour of heat-treated 3D printed In-718 and ASTM F75 alloys across multiple length scales 53

Sarkis Muradian, Yan Sun, Qian Zhong, Mingzhou Liu, Chen Su, Wenqiang Sun

Structure, mechanical properties, and corrosion resistance of low-nickel nitrogen-alloyed austenite stainless steel 69

Mariola Spalik, Barbara Kucharska, Aneta Jakubus, Grzegorz Krzywoszyja

Phase and roughness analysis of nanocrystalline coatings based on 310S steel with aluminum additions 81

Adrian Świątkowski, Tomasz Wiktor, Dariusz Kopyciński

Influence of growth velocity v and temperature gradient G on the interlamellar spacing λ of FeC unidirectionally crystallized eutectic 91

Tilen Balaško, Adam Zaky, Simona Delsante

Investigating the Al-Cr-La ternary system: Al-rich corner phase equilibria at 600 °C 103

JianTao Ju, YongWei Hu, Ning Luo, WenKe Guo, Qiang Bi

Extraction and recovery of zinc, potassium, and sodium from blast furnace dust by ultrasonic-assisted ammonia leaching 115
