

CONTENTS

W. Zakulski Professor Zbigniew Moser - Biography & Bibliography.....	325
I. Katayama, S. Tanigawa, D. Živković, Y. Hattori, H. Yamashita Newly developed EMF cell with zirconia solid electrolyte for measurement of low oxygen potentials in liquid Cu-Cr and Cu-Zr alloy.....	331
A. Kroupa, A. Dinsdale, A. Watson, J. Vrestal, A. Zemanova, P. Broz The thermodynamic database COST MP0602 for materials for high-temperature lead-free soldering.....	339
G. Vassilev, N. Milcheva, M.C. Record, R. Mancheva Diffusion couple studies of the Ni-Bi-Sn system.....	347
C. Costa, E. Barbareschi, P. Guarnone, G. Borzone Phase evolution in an MCrAlY coating during high temperature exposure.....	359
R. Süß, L.A. Cornish, M.J. Witcomb Investigation of the isothermal section at 1000°C in the Pt-Al-Cr system.....	367
D. Živković, D. Manasijević, Lj. Balanović, D. Minić, V. Čosović, A. Kostov, Ž. Živković Phase relations in Bi-rich part of the Bi-Ga-Ni system.....	375
G. Klančnik, D. Steiner-Petrovič, J. Medved Thermodynamic calculation of phase equilibria in stainless steels.....	383
Y. Wang, B. Hu, S. Liua, Y. Du Thermodynamic reassessment of the La-Mn system.....	391
J. Pavlu, M. Šob Ab initio study of C14 Laves phases in Fe-based systems.....	395
R. Čička, J. Bakajová, M. Štefániková, M. Dománková, J. Janovec Evolution of secondary phases in 0.17C-16Cr-11Mn-0.43N austenitic stainless steel at 800 and 850°C - thermodynamic modeling of phase equilibria and experimental kinetic studies.....	403
I. Ohnuma, R. Kainuma, K. Ishida Development of heat-resistant Pb-free joint by TLPS process of Ag and Sn-Bi-Ag alloy powders.....	413
J. Sopoušek, J. Vřešťál, A. Zemanova, J. Bursik Phase diagram prediction and particle characterisation of Sn-Ag nano alloy for low melting point lead-free solders...	419
W. Gasior, A. Debski Modifications of the SURDAT database of the physicochemical properties of metals and alloys.....	427
G.H. Zhang, K.C. Chou Viscosity model for aluminosilicate melt.....	433
V. Sklyarchuk, Yu. Plevachuk, I. Kaban, R. Novaković Surface properties and wetting behaviour of liquid Ag-Sb-Sn alloys.....	443
A.A. Symonova, O.N. Verezub, A.A. Sycheva, N.V. Verezub, V.L. Havin, G. Kaptay Surface grain coarsening and surface softening during machining of ultra-fine grained titanium.....	449
L. Falat, V. Homolová, J. Kepič, M. Svoboda, A. Výrostková Microstructure and properties degradation of P/T 91, 92 steels weldments in creep conditions.....	461
A. Costa e Silva, L. Nakamura, F. Rizzo Application of computational modeling to the kinetics of precipitation of aluminum nitride in steels.....	471
F. Habashi - Letter to Editor Leaching mechanism of semiconducting minerals - a historical note.....	477
A. Udovsky, M. Kupavtsev - Letter to Editor Modeling of structural and thermodynamics properties of sigma-phase for the Fe-Cr system.....	483
Conference announcements	
IFAC Control, Optimization and Automation in Mining, Mineral and Metal Processing MMM 2013 (San Diego, California, USA, August 25-28, 2013).....	i
Shechtman International Symposium, dedicated to life time achievement of Prof. Shechtman, 2013 Nobel Prize winner in chemistry, (Cancun, Mexico, June 29-July 4 th , 2014).....	ii
The 45 th International October Conference on Mining and Metallurgy (Bor, Bor Lake, Serbia, October 16-19, 2013)....	iii
