

CONTENTS

New Members of the Editorial Board

Prof. Dr. Sergei A. Decterov	i
A. Fadel, D. Glišić, N. Radović, D. Drobnjak	
Intragranular ferrite morphologies in medium carbon vanadium-microalloyed steel.....	237
U.C. Singh, A. Prasad, A. Kumar	
A Lump-Integral model based freezing and melting of a bath material onto a cylindrical additive of negligible resistance.....	245
B.J. Jia, J.J. Wu, W.H. Ma, B. Yang, D.C. Liu, Y.N. Dai	
Boron removal from metallurgical grade silicon using a FeCl ₂ molten salt refining technique.....	257
X.F. She, H.Y. Sun, X.J. Dong, Q.G. Xue, J.S. Wang	
Reduction mechanism of titanomagnetite concentrate by carbon monoxide.....	263
A. Čosović, V. Čosović, T. Žák, B. David, N. Talijan	
Structure and properties of nanosize NiFe ₂ O ₄ prepared by template and precipitation methods.....	271
M. Petrič, S. Kastelic, P. Mrvar	
Selection of electrodes for the “in situ” electrical resistivity measurements of molten aluminium.....	279
J. Syarif, T.N. Rohmannudin, M.Z. Omar, Z. Sajuri, S. Harjanto	
Stability of the beta phase in Ti-Mo-Cr alloy fabricated by powder metallurgy.....	285
I.A. Figueroa, O. Novelo-Peralta, M.A. Suárez, G.A. Lara-Rodríguez	
Analysis of the microstructural evolution and solidification behaviour of Sn-9 wt% Zn alloy with small additions of Mg.....	293
M.R. Roshan, R. Taherzadeh Mousavian, H. Ebrahimkhani, A. Mosleh	
Fabrication of Al-based composites reinforced with Al ₂ O ₃ -TiB ₂ ceramic composite particulates using vortex-casting method.....	299
Z. Cao, J. Xin, C. Chen, S. Liu, B. Hu, C. Tang, Y. Du	
Thermodynamic modeling of the Bi-M (M = Ti, Cr, V) systems.....	307
W.S. Chang, C.M. Lin	
Relationship between cooling rate and microsegregation in bottom-chilled directionally solidified ductile irons.....	315
W.-Y. Kim, A. D. Pelton, C. W. Bale, E. Bélisle, S. A. Decterov	
Modeling the viscosity of silicate melts containing manganese oxide.....	323
A.B. Peltekov, B.S. Boyanov	
Study of solid state interactions in the systems ZnFe ₂ O ₄ – CaO, ZnFe ₂ O ₄ – MgO and zinc cake with CaO and MgO.....	339
V. Gandova, G. Vassilev - Letter to Editor	
Comparative analyses of thermodynamic properties assessments, performed by geometric models: application to the Ni-Bi-Zn system.....	347
C.O. Rusănescu, M. Rusănescu - Letter to Editor	
The influence of the residual copper on the pipes steel hot plasticity according to environmental requirements.....	353
Conference announcements	
The 46 th International October Conference on Mining and Metallurgy (Bor, Bor Lake, Serbia, October 1-4, 2014).....	357
