

CONTENTS

New Members of The Editorial Board

Prof. Dr Milan D. Antonijević	i
Prof. Dr Lijun Zhang	v

R. Wei, Z. Lun, X.Lv, T. Hu, C. Bai

Improvement of the energy utilization efficiency of the V-Ti-magnetite reduction process with rotary hearth furnace	1
---	---

Y. Xu, J. Li, H. Zhang, Y. Lai

Computational modeling of anodic current distribution and anode shape change in aluminium reduction cells	7
---	---

Y. Wang, L. Wang, K.C. Chou

Effects of CaO, MgO, Al ₂ O ₃ and SiO ₂ on the carbothermic reduction of synthetic FeCr ₂ O ₄	17
--	----

L. Morales-Rivasa, H. Roelofs, S. Haslerb, C. Garcia-Mateoa, F.G. Caballeroa

Detailed characterization of complex banding in air-cooled bainitic steels	25
--	----

X. B. Huang, X. W. Lv, J.J. Song, C. G. Bai, R. D. Zhang, M. J. Zhou

Contact angle of water on iron ore fines: Measurement and analysis	33
--	----

J. Jansson, P. Taskinen, M. Kaskiala

Microstructure characterisation of freeze linings formed in a copper slag cleaning slag	41
---	----

O. Azouani, M. Keddam, A. Brahim, A. Schisseh

Diffusion kinetics of boron in the X200CrMoV12 high-alloy steel	49
---	----

V.M. Maksimović, A.D. Čairović, J.R. Pantić, I.Lj. Cvijović-Alagić

The recasting effects on the high gold dental alloy properties	55
--	----

E. Ranjbarbodeh, S. Serajzadeh, A. H. Kokabi, A. Fischer

Grain size distribution after similar and dissimilar gas tungsten arc welding of a ferritic stainless steel	61
---	----

U. Büyük, S. Engin, N. Maraşlı

Directional solidification of Zn–Al–Cu eutectic alloy by the vertical Bridgman method	67
---	----

A. Yan, L. Chen, H.S. Liu, F.F. Xiao, X.Q. Li

Study on strength and fracture toughness of Al–Zn–Mg–Cu–Ti(–Sn) alloys	73
--	----

B.K. Jena, N. Gupta, B. Singh, G. Sahoo

Mechanical properties of low alloy high phosphorus weathering steel	81
---	----

M. Erdem, M. Yurten

Kinetics of Pb and Zn leaching from zinc plant residue by sodium hydroxide	89
--	----

L.G. Ye, C.B. Tang, S.H. Yang, Y.M. Chen, W.H. Zhang

Removal of lead from crude antimony by using NaPO ₃ as lead elimination reagent	97
--	----

P. Fima, J. Romanowska - Letter to Editor

Activity of bismuth in liquid Ag–Bi–Ni alloys determined by equilibrium saturation method	105
---	-----
