

CONTENTS

D.H. Kim, W.J. Kim, H.S. Kim, K.S. Han, T. Tran, M.J. Kim Galvanic enhancement for high pressure leaching of chalcopyrite	119
Y. Chang, K. Zhao, B. Pešić Selective leaching of nickel from prereduced limonitic laterite under moderate HPAL conditions Part I: Dissolution	127
A.A. González-Ibarra, F. Nava-Alonso, J. C. Fuentes-Aceituno, A. Uribe-Salas Hydrothermal decomposition of industrial jarosite in alkaline media: The rate determining step of the process kinetics	135
A. Wolf, A.M. Mitrašinović Nickel, copper and cobalt coalescence in copper cliff converter slag	143
M.H. Morcali Development of a method for determination of metallic iron content within hot briquette iron (HBI) for steelmaking	151
D. Zheng, K. Wei, W. Ma, Z. Sheng, Y. Dai A mathematical model for distribution of calcium in silicon by vacuum directional solidification	157
R.H. Estrada-Ruiz, R. Flores-Campos, G.A. Treviño-Rodríguez, J.M. Herrera-Ramírez, R. Martínez-Sánchez Wear resistance analysis of the aluminum 7075 alloy and the nanostructured aluminum 7075 – silver nanoparticles composites	163
G. Giresan, S.R. Sankaranarayanan, L.J. Berchmans Investigation on the Thermodynamic analysis, preparation and characterization of LaNi ₅ – Hydrogen storage alloy by magnesiothermic reduction diffusion process	171
G. Huang, L. Liu, L. Zhang, Z. Jin Thermodynamic description of the Al-Cu-Yb ternary system supported by first-principles calculations	177
Letter to Editor	
A. Udovsky, O. Fabrichnaya About oxide dispersion particles chemical compatibility with areas coherent dissipation /sub-grains of bcc-alloys in Fe-(Cr, V, Mo, W) systems	185
