J.H. Chen, W.J. Mi, H.Y. Chen, B. Li, K.C. Chou, X.M. Hou Iron oxide recovery from fayalite in water vapor at high temperature	1
R.Mežibrický, M. Fröhlichová Mineral phases in iron ore sinters produced with oak sawdust substitute fuel	9
J. Yu, Y. Han, Y. Li, P. Gao Recovery and separation of iron from iron ore using innovative fluidized magnetization roasting and magnetic separation	21
W.-G. Jung, G.-S. Back, F. T. Johra, J.-H. Kim, Y.-C. Chang, S.-J. Yoo Preliminary reduction of chromium ore using Si sludge generated in silicon wafer manufacturing process	29
J. Puig, M. Balat-Pichelin Experimental carbothermal reduction of MgO at low pressure using concentrated solar energy	39
J. Burja, F. Tehovnik, M. Godec, J. Medved, B. Podgornik, R. Barbič Effect of electroslag remelting on the non-metallic inclusions in H11 tool steel	51
U. Klančnik, B. Košec, P. Mrvar, J. Medved Nonequilibrium solidification and microsegregation in centrifugally cast high speed steel for rolls	59
P. Donhongprai and P Juijerm Optimized fatigue performance of martensitic stainless steel AISI 440C using deep rolling integrated into hardening process	67
Y. Li, S.-H. Yang, C.-B. Tang, Y.-M. Chen, J. He, M.-T. Tang Reductive-sulfurizing smelting treatment of smelter slag for copper and cobalt recovery	73
S. Steinlechner Characterization and process development for the selective removal of Sn, Sb and As from anode slime obtained from electrolytic copper refining	81
I. Zalakain, C. Berlanga, L. Álvarez, L. E. Asa, P. Labé, P. J. Rivero, J. Valencia, R. Rodríguez Characterization of two iron bullets from the royal ammunition factory of Eugi (Spain)	91
D. Ashkenazi, A. Inberg, D. Cvikel Analysis of naturally etched surface of brass sheathing from a nineteenth-century shipwreck	101
M. Pang, Y. Peng, P. Zhou, Y. Du Thermodynamic modeling of the Hf-N system	111
S. Cui, R. Mishra, and I.-H. Jung Thermodynamic analysis of 6xxx series Al alloys: Phase fraction diagrams	119
