

CONTENTS

Z.-B. Tong, J.-T. Sun, S.-C. Liu, W. Zhang, M.-L. Kuang Study on a new process and its kinetics of iron recovery and glass-ceramics preparation from desulfurization slag	169
T. Mikuszewski, A. Tomaszewska, G. Moskal, D. Migas, B. Witala Induction vacuum smelting of Co-Al-W superalloys – optimizing the feedstock based on the alloy's chemical composition, elemental segregation, and slag formation	179
B.-X. Wang, W.-L. Yuan, Z.-Y. Wang, J.-X. Li, H.-Z. Ma, Y.-H. Song Characterizations and growth kinetics of the borided layer formed on pure nickel by molten salt electrolysis	191
A. Yang, K.-B. Nie, K.-K. Deng, J.-G. Han, T. Xiao, X.-Z. Han Microstructures and tensile properties of Mg-2Zn-0.8Sr-0.2Ca alloy extruded at relatively slow speed and low temperature	203
J.-W. Wang, D.-Y. He, X. Wu, X.-Y. Guo, Z. Tan, Z. Zhou, W. Shao Characterization of pre-alloyed NiTi powders produced by electrode induction-melting inert gas atomization for additive manufacturing	219
L.-G. Zhang, Q. Song, M.-Y. Tan, Y. Jiang, L.-B. Liu Phase Equilibria of Bi-Te-RE (Yb, Nd, Sm, Er, Tb) ternary systems at 673K	229
E.V.D.E. Santo, S.G. Soares, H.C.C. de_Oliveira, E. Junca, F.F. Grillo, J.R. de_Oliveira Replacement of lime with industrial wastes in hot metal desulfurization mixtures	243
A.-H. Bui, D.-C. Le, T.-T. Nguyen Synthesis of ZnO nanoparticles from electric arc furnace dust	253
S. Kumar, A. Jaiswal, R. Sah Improving the sinter productivity with increased specular iron ore in sinter blend	261
X.-Q. Wu, J.-F. Xu, P.-W. Gu, J.-Y. Zhanh Desulfurization of molten steel with molten slag using the electrochemical method	275
Ş. Çelik, D. Özyürek*, T. Tunçay The effect on wear behavior of the amount of Y ₂ O ₃ doped to the MA6000 alloy produced by mechanical alloying method	285
M. Zagula-Yavorska, J. Romanowska The effect of precious metals in the NiAl coating on the oxidation resistance of the Inconel 713 superalloy	299
V.N.H. Nguyen, S.J. Song, M.S. Lee Selective precipitation of ammonium hexachloropalladate from leaching solutions of cemented palladium with zinc	311
S.K. Thakur, A.K. Das, B.K. Jha Hot deformation behavior of micro-alloyed steel using processing maps developed with different constitutive equations	321
M. Rifai, M. Mujamilah, E. Bagherpour, H. Miyamoto Effect of strain energy on corrosion behavior of ultrafine grained copper prepared by severe plastic deformation	335
